To: Assisted Living Facilities and Adult Day Care Centers
From: Tara Ragland, Director, Division of Licensing Programs
RE: Infection Prevention and Control Program Effectiveness Survey Request

As a part of both the Epidemiology and Laboratory Capacity for Prevention and Control of Emerging Infectious Diseases Cooperative Agreement (ELC) & Virginia Long Term Care Infrastructure Pilot Programs (VLIPP) grants, VDSS' Infection Prevention and Control Team's (IPCT) purpose is to assist providers with on-site assessments, on-site training opportunities, and consultation for their infection control programs. To ensure we are effective in on-site assessments, training, and consultation opportunities for all staff in licensed Assisted Living Facilities (ALFs) and Adult Day Care Centers (ADCCs), the IPCT is sending out this survey to determine which infection prevention and control efforts have been most effective and to determine ways to further assist you.

In order to determine effectiveness and gauge your infection control needs, we request that you complete the survey by March 6, 2024, by using the link [here](#) or by scanning the QR code below. This survey will take about 4-6 minutes.

Thank you for your participation in our programs to improve the health and safety of those in your care!

For more information on the Virginia Long-Term Care Infrastructure Pilot Project (VLIPP) grant or this request, please reach out to us at IPCTeam@dss.virginia.gov.
