

READ-A-BOOK PROGRAM

This program is administered and managed by Child Care Aware of Virginia under contract with VDSS.

This distance learning self-study program allows early childhood professionals to earn credit for training clock hours by reading children's literature and books on early childhood education and child development. The Division of Child Care and Early Childhood Development, a part of the Virginia Department of Social Services, collaborated with the Library of Virginia to place sets of books in each of the 350 public libraries across Virginia. The Read-A-Book Program focuses on the importance of incorporating children's literature across the curriculum, reading to and with young children daily, understanding early brain development, fostering language and literacy development, and communicating successfully with young children. This program currently offers two book report options for obtaining credit for training clock hours. You are encouraged to choose one or both to receive credit. You may read and report on more than one book, and be eligible to receive credit for training clock hours for each new book report submitted to Child Care Aware of Virginia for grading. All book report materials are free when accessed electronically. A \$20.00 processing fee will be due when you submit materials for grading.

Option 1: Reading Children's Literature Books with Children

Option 1 requires you to read two children's literature books to your children and then develop a book report for each book that describes the activities and projects you developed to support the story or theme of the book. You may choose from the infant and toddler books placed in each public library in Virginia (titles listed on page 6 of the Read-A-Book Program booklet), or you may choose to use two of your favorite children's books.

Option 2: Reading Professional Books

Option 2 requires you to read one of the professional books listed in the Read-A-Book Program booklet on page 3, and then complete the corresponding book report. Each Virginia public library has at least one copy of the professional development books listed in the Read-A-Book Program booklet.

VIDEO TRAINING SERIES

The Virginia Department of Social Services (VDSS) offers two video-based training programs with study guides and testing materials. These programs are self-paced and child care professionals may earn four, six, or eight clock hours of training credit upon successful completion of the assessment materials.

To Participate

Child care professionals borrow the DVDs/videotapes and receive copies of the study guides and test materials from one of the eight regional licensing offices listed below. There is no cost for the study guides or testing materials. A twenty dollar (\$20.00) processing fee per person is charged when submitting the completed assessments for grading. A ten dollar (\$10.00) processing fee per person is charged if it becomes necessary to re-take an assessment.

To apply to receive credit for participation in either video series, each individual must complete the assessment materials for each program. Individuals must receive a passing grade to be awarded credit for training clock hours. Detailed instructions for participation are included with each study guide.

1 – DSS 101 - The Whole Child - A Caregiver’s Guide to the First Five Years (TWC) is a video series production developed by WTVS Detroit and the Merrill-Palmer Institute at Wayne State University in 1998. It is based on the textbook of the same name written by Joanne Hendrick, Professor of Early Childhood Education Emerita at the University of Oklahoma.

2 – The Program for Infant/Toddler Caregivers (PITC) was developed by WestEd and the California Department of Education. A team of experts in child development, child care, adult education, and print and video production was assembled to work with national and state advisors to create this video production. The goal of the program was to develop meaningful training materials based on sound principles and proven practices. The materials were developed for both center-based and family day home providers and focus on caring for infants and toddlers.

EARLY CARE & EDUCATION RESOURCE DOCUMENTS

It is vital that we provide the necessary foundation for Virginia's young children so they can be successful in life. Consequently, two documents have been developed by the Virginia Early Childhood Alignment Project Task Force to serve as guides to assist adults in their important roles with young children.

The **Milestones of Child Development** document articulates a research-based set of child indicators and strategies for adults designed to support the growth and development of young children from birth to kindergarten entry. Providers can use the Milestones to:

- plan quality learning experiences for children,
- select appropriate curriculum materials,
- provide information to parents to facilitate their child's development, and
- explain how their program benefits and facilitates children's development.

The **Competencies for Early Childhood Professionals** document articulates standards for competent practice, identifying what early childhood professionals must know, be able to do, and care about to provide quality early care and education. Providers may use the Competencies to:

- identify staff training needs and develop or update training offered in-house to staff,
- develop an individual plan for professional development or a tool for tracking training,
- develop job descriptions, hiring practices, and salary structures, and
- support the professional credibility of staff receiving education and training that are based on the competencies.

To download these valuable documents, visit the website at: www.dss.virginia.gov/family/cc_professionals_resources.cgi.
