

Medical Assistance Programs (MA)

Medicaid provides medical coverage for eligible individuals and families.

MA includes various programs covering:

prescription drugs, dental, doctor visits, hospital care, and long-term services

Plan First offers limited coverage

for family planning services.

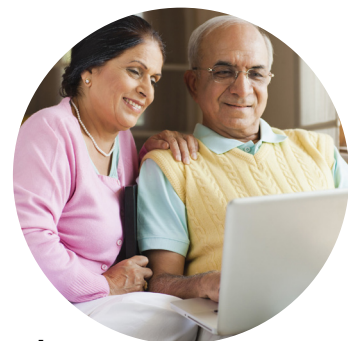

It's available for

children under 19, pregnant women, adults 19-64, and adults 65 and older, as well as blind or disabled individuals according to Social Security Administration standards.

MA aims to improve health by providing necessary medical care.
